As to Claim 5, the prior art of record, taken alone or in combination, fails to disclose or render obvious the second and/or the first optical module comprising means for adjusting a focus between the second optical module and the sample for a shorter distance than a focus between the first optical module and the sample, in combination with the rest of the limitations of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
